# HOW DOES COACHING WORK?

One-on-one **60-minute sessions on Zoom.**

Where possible, speech ideas & videos are sent ahead of the session for Verity to review before the meeting.

**Verity helps to focus on the flow of a speech so as to deepen the value to the audience.**

- Develop your idea or work through your transcript
- Refine your message
- Polish your speech development
- Tighten your storytelling

Once your script is done, **Verity deep dives into delivery** so you can deliver your speech authentically & powerfully.

- Staging
- Body language
- Vocal variety
- When needed, she also advises on slide design.

**Sessions are recorded on Yoodli and script edits are sent through** as soon as the session finishes, along with the recording and session transcript.

PLEASE NOTE: If you are in a speaking contest, coaching isn't a guarantee that you will place or win, but it does guarantee that you will work to deliver your best possible speech.

**“Each session is designed to find the gold that might be hidden in your speech. To dig deeper into your story and uncover the message you most want to share with the world.**

It's a journey of holding the space for your confidence to grow & to support you in really nailing your delivery.”
